

# HAF

# Holiday Activity & Food Programme

Allergies, medical conditions, medicines & additional needs.

Please ensure that our HAF team are aware of any allergies, medical conditions, medicines and/or additional needs for your child.

If you are unsure that additional information was previously added to the booking system or food order forms, please tell the HAF team as soon as possible.

## Medicines:

All medicines need to be in the original packaging, with a U.K prescription label (with the child's name.) Any medicines that are not for emergencies, such as inhalers and epi pens, must be discussed with the HAF staffing team first.

*Thank you for your support!*
