

# Holiday Activity & Food Programme

## SICKNESS POLICY:

*We would like all children to enjoy the club over the summer!*

To help keep other children and staff safe from feeling poorly, there are some illnesses where we ask that your child stays home, where they are better off recovering! As we have children and staff with different levels of health and pre-existing conditions, we ask you to follow this policy, to help keep everyone safe and well.

Please contact reception or the HAF team regarding a potential cancellation, **before attending**, if your child has experienced any of the following symptoms:

- Vomiting in the last 48 hours;
- Diarrhoea in the last 48 hours;
- Unknown rash;
- Chicken pox;
- A high temperature or fever;
- Continuously coughing;
- Hand, foot and mouth disease;
- Slapped cheek syndrome;
- Shingles;
- Scabies;
- Measles.

*Thank you for your support!*
